C-suite this year, both through my 'Interviews with the C-suite' vlog that you can find on the Addln365 website, and at our IT Leaders' Lunch, a quarterly event that we have begun to run for business and IT decision makers with an interest in digital

workplace.

I have learnt that leadership teams are looking to make investments in technology that will reduce the number of mistakes that are made in the organisation. I am told this trumps technology that might allow for a reduction in headcount (existing headcount is priced into budgets already unless cuts have to be made) and is more important than return on investment. How can that be? In short, mistakes cost money and that directly impacts profitability.

Which leads me on to the focus for this Agril are using Addln365's Al Viva year's brochure. Al is everywhere since the launch of ChatGPT at the end of 2022, with many CIOs asking what it's for. Our 2024 edition focuses on four inc that explain how Al had
